CLIENTS

Introduce major customers with Kumkwang Stainless

Fissler

- Client | Fissler
- Product | **Kitchen tableware 3 types**
(ladle, serving spoon, spatula)

Fissler is a premium cookware brand loved around the world for its harmonization of tradition and modernity for over 170 years.

KUMKWANG STAINLESS has a strong partnership with Fissler for over 10 years, and is contributing to the export trade in South Korea.

KOREAN AIR

- Client | KOREAN AIR
- Product | **Economy Class (Coach) cutlery**
(spoon, fork, knife)

Korean Air is a national carrier and a leading global airline.

Kumkwang Stainless has a strong partnership with Korean Air for over 15 years. We supply cutlery for in-flight meals with reliable quality and technology, and are responsible for the quality meals that Korean Air passengers eat in the sky.

“Passion” of Korean craftsmen
who have been researching customized cutlery only
Koreans for a long time of 50 year.

“Comfort” you’ll feel at your table with
well-prepared food with your loved ones
at your precious time.

“ZEEZ” was created for your perfect dining.

CURIO

CURIO, the first premium Western-style dishware that has inherited ZEEZ's spirit of offering more than just cutlery, will provide you with a classy dining experience

Dual method

It provides both practicality and sensitivity by adopting different processing methods for head and handle.

Stainless #304

Only stainless steel 304 is used, which is hygienic and safe.

Package

The luxurious package of luxurious black color makes the elegance of ZEEZ stand out even more.

ZE ZEEZ

GYOHADAM 교하담

Is there anything more precious than
a conversation at a dining table with a loved one?

GYOHADAM, which means
“conversation under a close relationship”,
which focuses only on the essence of meals
and Hansujeo, not missing any small details.

Stainless #304

Stainless steel 304, the finest raw material, is used without worrying about environmental hormones for cutlery that touches hot Korean food.

Best balance

GYOHADAM's scientific 4mm thickness and balance are simple, but provide understated Korean beauty and comfort.

Zirconium *Gold option only

The zirconium plating technology, which is also used as a part of a zirconium spacecraft, does not miss any of the stability.

ZEEZ

JIHADAM

지하담

It contains ZEEZ's desire for daily mealtime to become part of special routine

JIHADAM that means “a pleasant conversation at a meal time”,
which will take special responsibility for your simple routine.

Stainless #304

Stainless steel 304, the finest raw material, is used without worrying about environmental hormones for cutlery that touches hot Korean food.

All-in-one design

Hygiene and safety are not missed with an all-in-one design, not an assembly type that is vulnerable to sanitation.

Optimal balance

It contains ZEEZ's craftsmanship, which does not allow even minor discomfort during mealtime with the most comfortable weight and thickness when holding cutlery.

Value beyond the cutlery
